

# sollas SXP SERIES

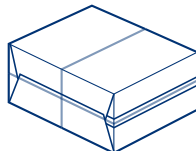

**Fully servo-driven,  
flexible, and quick**

**SERVO DRIVEN**

The Sollas SXP is a fully servo-driven overwrapping machine that can wrap up to 80 products per minute. The machine is based on our Sollas SX series, but cam-driven movements are replaced by servo-driven movements. The SXP can package a wide range of products both as single products or as bundles. The change-over time between different products is minimal and the process can be fully automated.

**Overwrapping**

**and bundling**

DIGITAL VERSION

## Your benefits

- ▶ Siemens Industry 4.0-ready
- ▶ Combines excellent wrapping quality with perfect product presentation, giving the consumer first-user guarantee
- ▶ Speed: up to 80/min
- ▶ Large and flexible product size range
- ▶ Self-emptying folding section
- ▶ Trailing edge seal, so no seal on display side
- ▶ Fully servo-driven for minimal maintenance
- ▶ Easy operation through HMI
- ▶ Can handle (bio)film and paper
- ▶ Different infeed directions and bundle infeed systems possible

## Options

- ▶ Fully automatic product change-over
- ▶ Teartape for easy opening
- ▶ Printmark registration
- ▶ Different infeed directions and bundle infeed systems possible
- ▶ Printers
- ▶ Modifications to optimally use coated paper

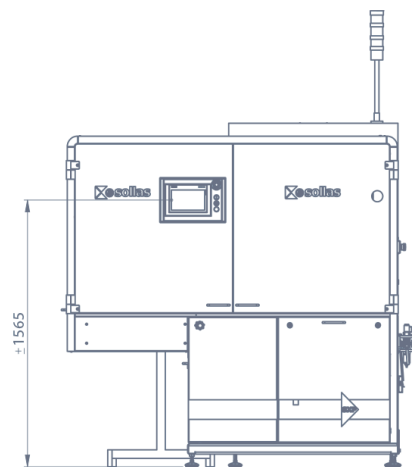

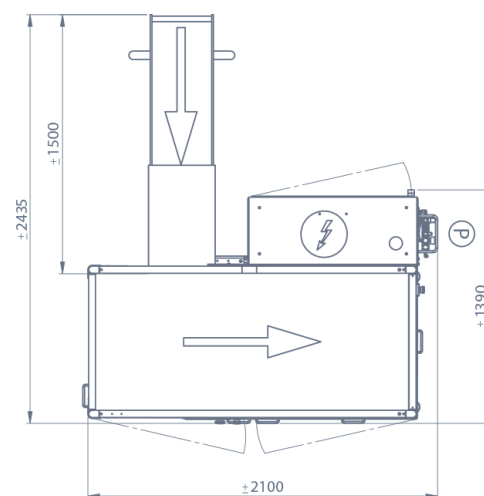

# Technical details

## Main specs

Max output <sup>1</sup>	<b>60/80 /min</b>
Min product size (mm) <sup>2</sup>	<b>L 40 W 40 (20) H 25 (7)</b>
Max product size (mm) <sup>2</sup>	<b>L 300 W 225 H 96 (125)</b>
Film width range	<b>50 - 435 mm</b>
Film-roll diameter max	<b>400 mm</b>
Air consumption	<b>5 nl / stroke<sup>3</sup></b>
Working pressure	<b>6 bar</b>
Power consumption	<b>6.0 kW<sup>3</sup></b>
Machine approx. weight	<b>1000 kg</b>
Machine color	<b>RAL 9006</b> (Sollas grey)
Drive system	<b>Servo driven</b>
Control system	<b>PLC</b> (Standard SIEMENS, Rockwell or Allen Bradley optional)
Configuration	<b>HL / HR / LL / LIL / DIL</b>
Packaging materials <sup>4</sup>	<b>Polypropylene, coated paper, recyclable BOPP and biodegradable BOPLA</b>

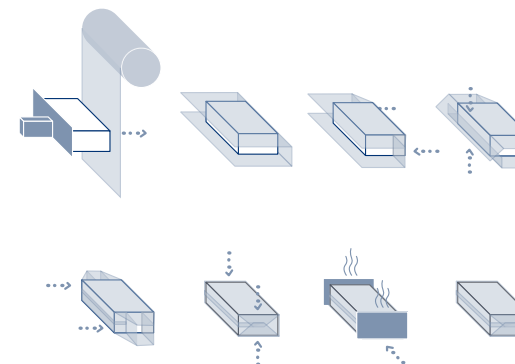

<sup>1</sup>Depending on product and packaging material. <sup>2</sup>Numbers within brackets indication optional changes. <sup>3</sup>Without accessories. <sup>4</sup>In general, all common heat-sealable packaging materials can be used. When in doubt, Sollas will gladly test any material that you wish to use.
