Sollas provides high quality packaging solutions. Our (over) wrapping and banding machines are customized and tailored to each individual situation. Quality and innovation are our keywords. Combined with a reliable service and, above all, a supportive, proactive approach, you can be sure to receive the whole package.

Sollas is a family-owned Dutch company. From our head office in Wormer, we coordinate all our national and international activities. Branch offices are to be found in France, Germany and United Kingdom. Backed by an international network of some 50 agents and distributors worldwide, we provide sound after- sales care and support.
